

The History of a Pension Fund

Michael Azimi

2017

Summary

As shown by the available evidences, CSPF is the oldest pension fund in Iran, and its history dates back more than a century. As the second largest pension fund in Iran, it has always played a key role in the administrative system of the country. However, it should be noted that no comprehensive research has been conducted on the history and evolution of the pension fund. Therefore, the major goal in this book is to occupy such a niche so as to shed more light on the future of CSPF, and more importantly, to encourage other pension funds in the country to come up with a similar project. Attempts have been made in this study to put together the experiences of 19 managers of CSPF through conducting in-depth interviews with them. The formation and evolution of CSPF has been accounted for in detail using the information being extracted from the interviews.
